

www.skupe.net

...a new era for 'Classified Search'

Skupe Net is here to help consumers and vendors find each other quickly and efficiently.

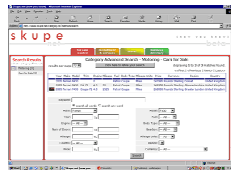

- If you are a business who works in Motoring, Property, Recruitment or Travel then Skupe Net will drive qualified leads direct to your website..... **just like a search engine.**

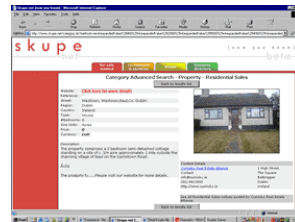

- If you're looking for a car, a house, a job or a holiday, then you are no more than 3-clicks away from available offers **just like a specialist portal.**

Step 1...

Step 2...

Step 3...

It is the best of both worlds: our homepage search is a descriptive search just like Google or Yahoo, eg 'used Volvo v40 for sale'. However our advanced search adapts for the kind of offers you are searching for, eg you can specify price, types, models etc, so your results are ordered and easily actionable.

There is no catch.

- We do not charge vendors to include their offers within our search results
- We do not charge purchasers to use our site (and no, you don't need to register or give us personal information)

It really is that simple – 'www.skupe.net'
